SUMMARY

A Full Stack Web Developer with a background in Dental Nursing and Business Administration.
A highly competent individual who is dedicated, enthusiastic and hardworking with a proven ability to work proactively in a complex and busy environment. A reliable employee who can demonstrate effective communication and multi-tasking skills in the workplace. A quick learner with a highly organised personality who can absorb new tasks and take on new challenges with a positive attitude.

TECHNICAL SKILLS

Languages: HTML | CSS | JavaScript
Applications: GitHub | Visual Studio Code | jQuery | Bootstrap | Firebase | Node Js | MySQL | MongoDB | Express | Handelbars.js & ReactJS.

PROJECTS

Build-A-Page | https://github.com/JackoWray/JAKL_Coding | https://project-02-jakl.herokuapp.com/

- Build-A-Page is an easy to use application that features an editable and resizable drag and drop system that allows you to create simple templates for your report or newsletter needs. It includes a save feature so that users can return and once logged in, can view all their saved templates for future needs or delete them if they are no longer in use.
- Responsibilities included: Creating the models, seeds, server.js and handlebars to create the basic layout of our app. Used Tailwind to create a simple visually appealing application as well as creating a detailed READme and presentation.
- Tools used: JavaScript | Bcrypt | Express, Express-session, Express-handlebars | MySql | Gridstack | Tailwind | Sequelize | dotenv | Heroku

Comet Watch | https://github.com/Wratten/Comet-Watch | https://wratten.github.io/Comet-Watch/

- Comet Watch is a web page created for users who love Asteroids and would like to know interesting facts based on a date of their choice. The user will be able to view a table of specific data and a picture of the day also related to the chosen date.
- Responsibilities included: Creation of the image carousel to allow users to flick through a selection of galaxy related images. Worked with Tailwind to create a clean aesthetic web page and created a detailed GitHub ReadMe/presentation.
- Tools used: jQuery | CSS & Tailwind | JavaScript | HTML | APIs

EXPERIENCE

Arcadis Australia Pacific | Administration Assistant
